

WELDER OUTSIDE OF CONSTRUCTION DECREE

Job status: permanent, temporary, casual.

Shift: day, evening, night, weekend and on call.

Possibility of overtime.

Job Summary Description

SDX Mécanique, a specialist in mechanics and industrial maintenance, is looking for Welders for the deployment of a team of workers in an industrial environment. The selected candidates will be called upon to support mechanics and pipe-fitters in the execution of mechanical work, structure assembly, installation and replacement of equipment. Versatile and respectful of health and safety standards and rules, our welders pay great attention to the quality of their work and are excellent team players.

Job Description

In the execution of their work, our welders have to prepare, cut, shape, assemble, weld, braze, repair or modify equipment parts, metal structures or prefabricated elements. The welders we're looking for are skilled in primary arc welding plasma or torch cutting and may be called upon, depending on their experience, to weld using MIG or TIG.

Required knowledge and skills

Hold a DEP.

- Have relevant experience on a construction site or in an industrial environment.
- Hold a valid ASP Construction card.
- Intermediate level of written and spoken French. English is an asset.
- Have a sense of autonomy and efficiently manage priorities.
- Hold a class 5 driver's license.
- Knows and respects (at all times) the rules related to health and safety at work.
- CWB and high-pressure certification is an important asset.
